

Ashok Koirala

Second Year Student at Sunway College pursuing BSc (Hons) Computer Science with AI

Address	Tokha-3 , Kathmandu
Contact Number	9849626348
Email	koiralaashok47@gmail.com

SUMMARY

This is the resume of myself.

EDUCATION

Sunway college (Kathmandu)

BSc(Hons) Computer Science with AI
Mar, 2024 - Present

Fluorescent Secondary School (Kathmandu)

Grade 12
Jul, 2019 - Aug, 2021

PROJECTS

Hospital Management System

It is the project of my first semester under python course where I had to make the digital system to manage the patients and doctors' data using Python.

Innovative Smart Parking System

It is the project of my second semester under innovative course where in a group we have to build the smart parking management system by using IOT, Machine Learning, Python, Web UI/UX.

Achievements

IBM design thinking

The IBM Design Thinking certificate signifies a comprehensive understanding and practical application of design thinking principles, a user-centered approach to problem-solving and innovation.

Training/Certifications

Kaggle

Python
2024

Kaggle's Python course is designed to help beginners get started with Python, focusing on its application in data science and machine learning. The course typically covers Python basics, libraries and tool, functions. This course emphasizes hands-on learning through coding exercises and real-world

examples. Completing a Python course on Kaggle is a fantastic achievement and a significant step towards a career in data science and machine learning.

Kaggle

Machine Learning

2024

Completed a foundational course covering essential machine learning concepts such as data preparation, model building, validation, and feature engineering. Gained hands-on experience working with real datasets and implementing models like Decision Trees and Random Forests. This course provided practical skills for solving real-world problems using predictive modeling and data analysis techniques.

Skills

Python, web design&development, Communication, Django

Language

English
